

**The tours express the novel method  
To know as conceived by Anna Rosa  
Ferrari \*.**

**They may be epitomized  
in the sentences**

**“follow your nose... your nose  
knows best”**

**“ the kingdom of separateness  
has fallen”**

**An innovative type of museum  
is being born  
dedicated to perfumes,  
suggestive even to those  
who are not privy to the matter.**

**In the course of your own  
personal journey  
you turn up here “by chance”, as after  
crossing an unknown intersection...**

**to enjoy yourself, fulfill your curiosity  
to mix anew your senses  
in harmony with nature  
to get to know yourself  
through your nose.**

\* A.R. Ferrari, profoundly trained throughout a laborious existential/experiential search, is a master perfumer and philosopher. In 2017 she graduated cum laude in Philosophical Sciences at the University Alma Mater Studiorum, Bologna, with an experimental dissertation on the PerfumAlchemic “Method to know”.
